TECHNICAL SKILLS

Frontend Development
- HTML5, CSS3, JavaScript
- React JS
- Responsive Web Design
- UI Development

Mobile Development
- React Native
- Mobile App Development

UI / UX
- Material Design
- Responsive Layouts
- Custom Components

APIs & Integration
- REST APIs
- JSON Parsing
- HTTP Requests

Database
- SQL

Cloud & Deployment
- AWS (Basic)
- Netlify

Tools
- Git & GitHub
- VS Code
- Postman
- Android Studio

Other
- Problem Solving
- Debugging & Performance Optimization
- Agile Development Practices

VIGNESH M

FRONTEND DEVELOPER

PROFILE

Results-driven Frontend Developer with 2+ years of experience building and deploying responsive web and mobile applications. Skilled in JavaScript, HTML, CSS, React JS, React Native, SQL, REST API integration, and modern UI development practices, with working knowledge of AWS and Netlify deployment. Experienced in developing production-grade applications for SLMS, ERP, MLM, TNPSC and NEET/JEE projects. Passionate about clean architecture, performance optimization, and delivering high-quality user experiences.

WORK EXPERIENCE

Lider Technology Solutions
JAN 2025 – PRESENT

Frontend Developer (Current)

- Developing responsive web and mobile application interfaces using React JS, React Native and modern frontend technologies.
- Built SLMS (School Learning Management System) with modules for student enrollment, attendance management, timetable scheduling, and result tracking with role-based access for Admin, Teachers, Students, and Parents.
- Developed ERP Management System with features including employee management, reporting dashboards, data handling, and workflow management.
- Built MLM (Multi-Level Marketing) Application with referral tree visualization, commission tracking, downline management, and wallet-related functionalities.
- Built TNPSC exam-preparation and NEET/JEE mobile applications using React Native, using Android Studio for emulator testing and debugging.
- Integrated REST APIs and optimized frontend performance for smooth user experience.
- Worked closely with UI/UX designs to create responsive and user-friendly interfaces.
- Participated in application deployment (Netlify, AWS basics), maintenance, bug fixing, and post-release support.

KEY PROJECTS

ERP Management System
LIDER TECHNOLOGY

Tech: React JS, REST APIs

- Employee and business management platform with modules for employee records, attendance tracking, payroll handling, workflow management, and reporting dashboards.
- Implemented role-based access, data management features, API integration, and responsive UI for efficient business operations.

EDUCATION

2018 – 2022

DR MGR UNIVERSITY

- B.Tech Information Technology
- CGPA: 8.1/10

2017 – 2018

GVT BOYS HIGHER SECONDARY SCHOOL

- HSC
- Percentage : 75%

2015 – 2016

GVT BOYS HIGHER SECONDARY SCHOOL

- SSLC
- Percentage : 88%

CERTIFICATE

Full Stack Web Development

6-Month Professional Course

Jul 2024 – Dec 2024

Topics Covered:

- HTML5, CSS3, JavaScript
- React JS
- Responsive Web Design
- REST API Integration
- SQL & Database Management
- Git & GitHub
- Frontend & Backend Basics
- Web Application Deployment

LANGUAGES

- English (Fluent)
- Tamil (Native)

School Learning Management System — LIDER TECHNOLOGY

Tech: React JS, REST APIs, Auth

- School management platform with modules for student enrollment, attendance management, timetable scheduling, assignment handling, exam management, and result tracking.
- Role-based access for Admin, Teachers, Students, and Parents with secure Auth login.
- Implemented role-based access for Admin, Teachers, Students, and Parents with responsive UI and REST API integration for seamless academic management.

MLM – Multi-Level Marketing — LIDER TECHNOLOGY

Tech: React JS, Firebase

- Network marketing platform with referral tree visualization, commission calculation engine, downline management, and integrated wallet for payouts.
- Real-time data updates via Firebase and dynamic earnings dashboard with chart rendering.

TNPSC Exam Preparation App — LIDER TECHNOLOGY

Tech: React Native, REST APIs

- Mobile app for TNPSC aspirants with mock tests, question banks, and performance tracking.
- Built with React Native with REST API integration and responsive mobile UI; tested using Android Studio.

NEET/JEE Mobile App — LIDER TECHNOLOGY

Tech: React Native, REST APIs

- Mobile learning and exam-prep app for NEET/JEE students with timed tests, question banks, and performance analysis.
- Developed in React Native with REST API integration and secure login; tested using Android Studio.

DECLARATION

I hereby declare that all the information furnished above is true, complete, and correct to the best of my knowledge and belief.
